

#GOLIVESuccessStory

Project management digitalization with Sage X3.

[GOLIVE]

Company history

Nabegos was founded in Zaragoza, Spain in 1979 as the first center in the region dedicated to wooden DIY. Specializing in the design, fabrication, and installation of custom furnishings, it gradually became a service provider for the trade fair sector.

It currently offers **global creation and construction solutions for all types of commercial spaces**. Its services include design, audiovisual equipment manufacture and assembly, and interactive experience development.

After more than 40 years of constant evolution, the company needed to upgrade its management system.

The company was experiencing fast **growth** and found that its existing management systems was not keeping pace.

At the time they contacted GOLIVE, the company had a highly manual process management system. They were using software designed for POS to manage accounting, and for the rest of their processes they used Excel.

This forced the company to enter the same information up to two or three times in different systems, leading to gaps in data, delays in processes, and lack of confidence in the data they were using.

01

NEEDS CONSIDERATION

- Implement a platform that supports the company's growth.
- Operate more efficiently by improving integration with other tools.
- Improve the quality of information and streamline internal processes.

02

ABOUT THE PROJECT

- **SAGE X3 IMPLEMENTATION** focused on purchasing, sales, project management, and finance. The project ran from March 2019 to July 2019.
- **XPENDOR IMPLEMENTATION**, an application fully integrated with Sage X3 for managing the company's expense control and accounting.
- We have provided **support** for the organization's systems since 2019.

03

ABOUT SAGE X3

Sage X3 allows performance of all key activities in a user-friendly, intuitive environment.

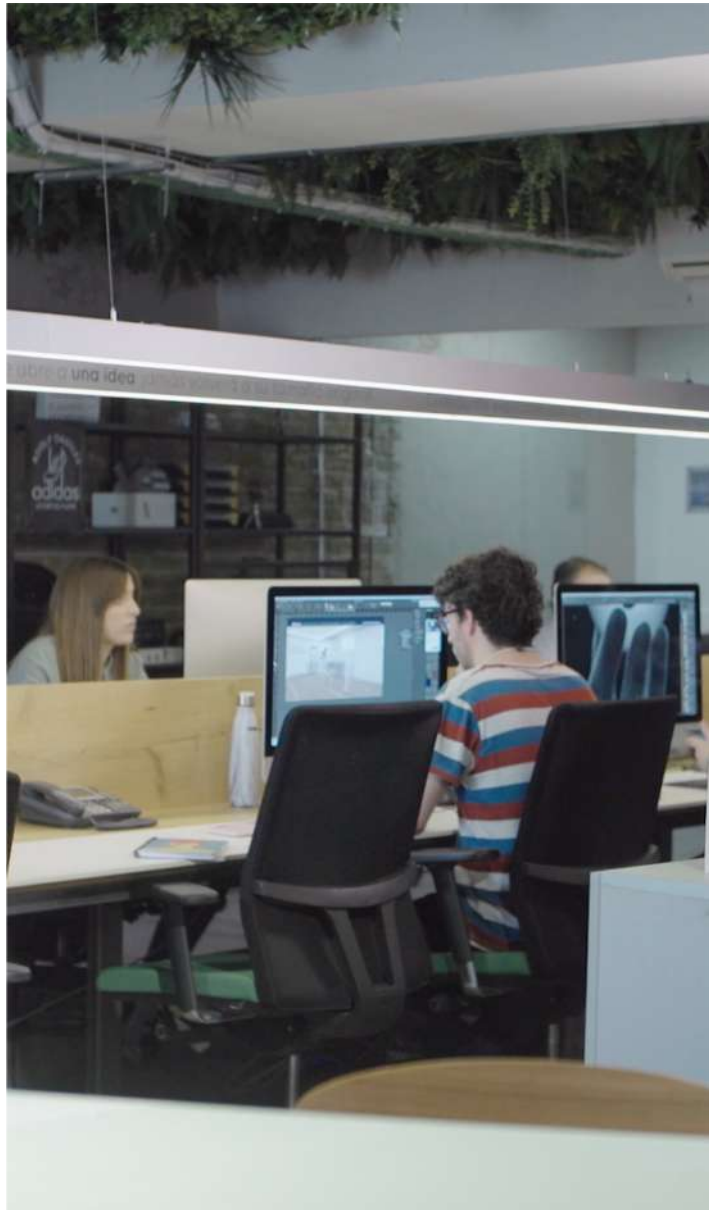

It also allows for optimal management of projects, and it provides a clear idea of the margins of each project. All thanks to being a single source of truth for all operations, providing traceability and **saving time while reducing mistakes.**

04

ABOUT GOLIVE

We are specialists in Digital Transformation, with more than 15 years of experience in business process digitalization.

Our expertise in Sage X3 implementation for project-based companies makes us the perfect partner to assist firms looking to digitalize their operations in this sector.

BARRIER-FREE GROWTH

Sage X3 is a fast and flexible ERP that supports the company's growth.

PEOPLE, PROCESS, AND KNOWLEDGE ALIGNMENT

Productivity has been increased by operating more efficiently and effectively with an intuitive and collaborative ERP.

COST CONTROL

The company now has access to information about the evolution of costs for each project, quickly and in real time.

EFFICIENCY

Project phase and activity status, resource management, time and materials tracking, as well as budgets and invoices associated with each project.

”

“At Nabegos, we had been undergoing a period of growth that made it necessary for us to make a change to our management system. Our main need was to improve our **project management and to have a clear idea of our margins** for each project.”

Carlos Cosculluela
Nabegos Manager
